EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Nancy Axelrod on 08/22/07.

The application has been amended as follows:

- Cancel withdrawn claims 32-36 without prejudice.

2. The request for rejoinder made in the response filed 06/19/07 is acknowledged, but is denied. The scope of the reaction mixture and kit of withdrawn claims 32-36 is indeed greater than that of the allowed method claims, as the reaction mixture and kit could be used in materially different methods, such as mutagenesis cloning. In searching the allowed method claims, the full scope of the claimed reaction mixture and kit has not been searched, and thus additional burdensome searching would be required to examine the withdrawn claims.
